

SUMMARY

The SPECTRA UV 40 is a 40 Watt UV luminaire utilizing high performance, long life UV-A emitters. The Spectra UV 40 is designed with four LED cells on four independent DMX channels for intensity control. The LED cells can be individually focused and the interchangeable yoke allows for vertical or horizontal alignment of the LED cells.

An on board multi-voltage power supply allows for direct power & data connection as well as feed through capabilities. The SPECTRA UV 40 is compatible with both DMX & RDM protocols and comes complete with a library of pre-programmed fades, strobes as well as manual intensity controls. Shows and addressing are accessed via the push button display.

FEATURES

- High performance, long life UV-A emitters
- Less visible light than traditional blacklights
- Individual focus of the UV Cell's
- Interchangeable yoke for vertical or horizontal alignment of the LED cell's
- Compatible with DMX and RDM protocols
- DMX Address assignable via RDM or on-board push button display
- Feed through Power & Data Capabilities
- User selectable 8 and 16-Bit personalities for smooth fades from 0 to 100%
- Pre-programmed modes for full on, strobe or manual dimming
- On board multi-voltage power supply
- Black finish
- Weight: Approximately 16 lbs. (7.26 kg)
- ETL, cETL and IP65 Listed
- Made in the USA

SPECIFICATIONS

Materials: Lightweight aluminum fabrication with all corrosion resistant materials and hardware.

Light Engine: (4) 365nm UV emitters per pod (16 emitters maximum).

Lensing: 10°, 30° or 60° lens options.

Rating: IP65 for outdoor use.

Electrical Rating: Multi voltage, 100-240VAC operation.

Cable: 5' UV10C IP65 Extension Cable included.

Finish: Anodized Black.

Weight: Approx. 20 lbs.
